

# Why the thawing arctic matters, and how to communicate it

A talk with

**Eli Kintisch**

An award-winning correspondent for *Science Magazine*

Thursday, December 1st, 2016  
Noon — 1:30 PM

Sage Hall, 41 C Fourth floor conference room  
Yale School of Forestry and Environmental Studies  
205 Prospect Street, New Haven, CT

Lunch will be provided  
Space is limited

**PLEASE RSVP TO**  
[climatechange@yale.edu](mailto:climatechange@yale.edu)

Image: NASA HQ

The Arctic is warming at twice the global average rate, but the effects of its thaw could affect billions far from its frozen shores. Kintisch will share photos and videos to discuss the challenge of reaching audiences on climate change using evidence from the region.

Kintisch's presentation will be followed by a conversation with Anthony Leiserowitz, Director of the YPCCC, Jon Sawyer, Executive Director of the Pulitzer Center, and Bud Ward, Editor of Yale Climate Connections, YPCCC's online news service and national radio broadcast.
